

Stream music, videos and take phone calls directly to your hearing aids

If you are an iPhone®, iPad® and iPod touch® user, in addition to controlling your hearing aids through the HearPlus app, you can stream sound wirelessly, without the need to wear an uncomfortable adaptor. Your Made-for-iPhone hearing aids* can now work like wireless headphones - talk on the phone or listen to music in stereo, use FaceTime®, and even get GPS directions streamed straight to your hearing aids. It's a revolutionary way to help you hear sounds clearly.

Beltone. Helping the world hear better

Beltone was founded on the act of helping a friend to enjoy life more. Since 1940, we have provided knowledge, tools, service and training to the professionals servicing the hearing impaired. Beltone makes quality hearing care available to more people. To do so, we develop technically optimal hearing solutions without ever losing focus on the individual's needs. It is our belief that no individual should be denied the possibility of an improved life with better hearing.

*Beltone First is compatible with iPhone 5s, iPhone 5c, iPhone 5, iPad Air, iPad (4th generation), iPad mini with Retina display, iPad mini and iPod touch (5th generation) using iOS 7.X or later. Apple, the Apple logo, iPhone, iPad, iPod touch and FaceTime are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc. Dolby and the double-D symbol are registered trademarks of Dolby Laboratories.

The HearPlus™ App

Hearing aid control made easy

Controlling hearing aids has never been easier

The free Beltone HearPlus™ app is the most advanced app of its kind for hearing aid wearers. HearPlus lets you control your hearing aids so easily and discreetly. There's no need to remove them from your ears or use an intermediate device or streamer around your neck.

Download the free HearPlus app and start controlling your hearing aids in a simple and intuitive way directly from your iPhone®, iPad® and iPod touch®. It's as easy as sending a text or checking the weather. And to the rest of the world, it looks as if you are doing precisely that!

Change volume and programs

The HearPlus app lets you discreetly adjust volume and quickly change programs on your hearing aids directly from your favorite devices.

Save repeat locations to 'My Places'

Make a collection of your favorite places with custom settings and save them to My Places. The HearPlus app will prompt you to switch to saved settings every time you come back to one of your favorite places.

Check battery status

Always feel confident and avoid accidentally running out of battery power when you check the battery life on your hearing aid right on your favorite devices.

Find my Hearing aids

If you lost your hearing aid you can now easily track it using the 'Finder' feature of the HearPlus app. The app can also remember the last location of your hearing aid and will show it on a map.

Use tutorials for more tips

Use our tips and tricks in the 'My Hearing Aid' tutorial to get the most out of your hearing aids. Learn how to turn your hearing aids on or off, change a battery, clean and maintain your hearing aids, troubleshoot, and change settings.
